

jefflowe_tigerking These dumbasses of Joe's still don't understand that we hold all the cards. We have the LaCie drive, we have the burned studio drives, we have all Joe's disgusting sex thumb drives. I backed up his entire computer the last night he went to be an announcer as some stupid wrestling match. We have it all. We have all James recording, we have all Lauren's ORIGINAL un-altered recordings. Did you know that Joe used to operate an underground sex website? Where people would pay to watch him do whatever he was doing to animals, humans, possibly children? Joe told me all about it. Eric Goode knows all about it. Netflix did too. Why didn't they expose Joe? Because they wanted Tiger King to make \$500M in subscribers and nobody would have watched a child raping goat and kangaroo fucker.
