

jefflowe_tigerking Joe, every crime you've ever committed will now come to light. 505,000 files, pictures and videos are in the hands of the two guys that tried to help you time and time again. We even tried to help you after your conviction, but you just couldn't keep your big mouth shut. This drive is in Mexico, out of your reach, out of Carole's reach and out of John M Phillips reach. What we have already seen on this drive is beyond words. What sick fuck could do these things? and WORSE, what sick fucks (Goode & Chaiklin) would know this exists and not turn it over to the authorities? Thanks to a certain former Royal Goode Productions employee for risking life and limb to get this in our hands. You're done Joe, once and for all.
