

 jefflowe\_tigerking It's taken me and James almost two years to locate and procure the evidence we needed to prove to the World that Joe Exotic raped children and animals. John Phillips allows his young impressionable boys to worship and man that would rape them all if given the opportunity. A lawyer with a larger quest for fame than for the protection of his own kids, that's what John M Phillips aspires to be known for. There is more evidence of massive drug consumption and child molestation than we would have ever believed existed. Phillip's, Joe, Hartpence, Bra•don, Finlay, they all know it's true and it's coming out soon. Angela, get out while you can. Sell that ugly ass beach house and find a real man. Not one that idolizes a child rapist.

 jefflowe\_tigerking @jj\_pbn Feds are already in the mix. They were the first ones we sought advice from before buying the hard drives.
