

jefflowe\_tigerking More idiocy by "Team Tiger Queen" Allen Glover has already been recorded and now sent text messages exposing that Phillips paid him to change his story. Phillips even helped Glover with living expenses in Las Vegas to keep him under thumb and unable to contact anyone but his father. It's all coming out soon. You and your "plot" bullshit is in your mind. I didn't want to kill you, I could have easily accomplished that. I already owned the zoo, your house and your animals. It was all mine and you aren't tough enough to have taken it from me. What we wanted, we accomplished. Your child raping, animal abusing ass in prison for life. And we checked that off our, to do list with ease. And lets see what Darlene Cervantes has to say about her being your largest cub trafficking agent for 7 years. Joe, if you think your Federal charges are exhausted already, think again. You will never breath our oxygen again. And we're taking down John M Phillips next. Meeting this week to let Netflix review the Studio footage of you shooting tigers. Wish us luck.
